THE INFIGHT ERA IS HERE

「インファイト」時代の到来

The combination of Hardlight Mesh, Shotgun Buffs, and Marksman Nerfs forces teams to close the distance. Long-range engagements are less effective, pushing squads into confined spaces for decisive battles.

“Poke damage is no longer enough. To win in Season 28, you must breach, enter, and wipe the squad.”

Strategy: Use Fuse to open the hole, and Catalyst to seal it behind you. Coordinated aggression is the key to survival in this newly aggressive meta.
